The University of Maryland Medical Center (UMMC) in Baltimore provides a full range of evidence-based health care services to the Mid-Atlantic region. As the flagship academic medical center of the 12-hospital University of Maryland Medical System, UMMC delivers high-value primary and specialty care, serving as a referral center for the most critically ill and injured patients. The Medical Center is one of the nation’s first teaching hospitals, established in 1823 in partnership with the nation’s first public medical school. All attending physicians at UMMC are faculty members of the University of Maryland School of Medicine.

### Major Centers and Services

- **The R Adams Cowley Shock Trauma Center** is a world leader in trauma care, research and training, and is the heart of Maryland’s model emergency medical services system.
- **The University of Maryland Children’s Hospital** is a regional resource for diagnosing and treating serious and complex health problems in infants through young adults.
- **The University of Maryland Greenebaum Cancer Center** is one of a select group of NCI-designated cancer centers in the US, dedicated to compassionate, evidence-based care and discovery-driven research.
- **The University of Maryland Division of Transplantation** is one of the nation’s busiest transplant programs – performing more than 400 organ transplants a year.
- **The University of Maryland Comprehensive Heart Center** is a national leader in minimally invasive treatment options.

The Joint Commission recognizes UMMC as a **Comprehensive Stroke Center**, a designation awarded to fewer than 70 centers in the US.

UMMC is a leader in **time-sensitive critical care**, with 12 specialized intensive care units. Physicians and hospitals across the region refer their most critically ill patients to UMMC, with coordination by **Maryland ExpressCare**.

UMMC is among the 7 percent of US hospitals **with Magnet Designation for nursing excellence**, as recognized by the American Nurses Credentialing Center.
