

UNIVERSITY of MARYLAND MEDICAL CENTER

MIDTOWN CAMPUS

FACTS

Since its founding more than 130 years ago as a community teaching hospital, the University of Maryland Medical Center Midtown Campus (UMMC Midtown Campus) —located in Baltimore’s cultural center near the historic Mount Vernon neighborhood—has provided access to a full range of medical and surgical care. UMMC Midtown Campus is one of two locations of the University of Maryland Medical Center, the flagship hospital of the University of Maryland Medical System .

MAJOR CENTERS

The world-class **University of Maryland Center for Diabetes and Endocrinology** is staffed by physicians recognized by the National Committee for Quality Assurance. The education program meets the national standards for diabetes self-management education.

The University of Maryland ALS Center is the only Treatment Center of Excellence in Maryland certified by the ALS Association.

The Vascular Center’s non-invasive laboratory is fully accredited by the Intersocietal Accreditation Commission in all areas of vascular testing, and is staffed by registered vascular technologists.

The Wound Healing Center’s partnership with the University of Maryland School of Medicine and UMMC University Campus gives patients access to the latest research and technology in wound care.

The state-of-the-art **University of Maryland Sleep Disorders Center** conducts overnight and daytime sleep studies to help diagnose a wide range of sleep disorders, from insomnia and sleep apnea to snoring, narcolepsy, night terrors and sleepwalking.

The **University of Maryland Center for Infectious Diseases** is a leader in providing expert care to prevent and combat infectious diseases caused by bacteria, fungi, parasites and viruses.

Through its partnership with the Institute for Human Virology, the center also focuses on education, prevention and clinical care for those with **HIV/AIDS** and **hepatitis**. The **JACQUES Initiative** is a community outreach program focused on peer counseling to ensure long-term treatment success for individuals and communities affected by HIV.

RECOGNITION AND AWARDS

The **Delmarva Foundation Excellence Award** for Quality Improvement from the Delmarva Foundation for Medical Care honored UMMC Midtown Campus for excellence in patient safety and quality improvement.

UMMC Midtown Campus was recognized at the **Maryland Patient Safety National Conference** for its **Post Acute Specialty Program (PASP)** for performance improvement success in reduction of ventilator-associated pneumonia (VAPs).

UMMC Midtown Campus earned the **Midas+ Platinum Quality Award** for excellence in resource utilization efficiency and clinical efficacy, scoring above the 95th percentile nationwide.

In 2016, the UMMC Midtown Campus stroke program received the Gold-level **Performance Achievement Award from the American Heart Association/American Stroke Association's** Get with the Guidelines program for the fourth year in a row.

For 2016-2017, UMMC Midtown Campus was recognized by **U.S. News & World Report** for its high-performing care in adult **Diabetes & Endocrinology**.

COMMUNITY HEALTH IMPROVEMENT

UMMC Midtown Campus promotes wellness inside as well as outside its walls by offering seminars, lectures, health fairs, free health screenings and support groups.

The **Community Health Education Center (CHEC)** promotes and maintains community health through early detection, prevention and education. Baltimore residents can visit CHEC for free health screenings, health information and wellness programs — with no appointment needed.

The following health screenings are available at CHEC:

- blood pressure
- cholesterol
- BMI
- HIV
- blood sugar
- pregnancy tests

In addition, UMMC Midtown Campus provides robust health education and outreach services, including:

- Wellness programs (from smoking cessation to infant care)
- CDC/NIH National Diabetes Prevention Program
- Maryland Healthy Men Program
- Violence Intervention Program
- Workforce development programs
