

Jamie Hyunjin Choi, MD

1. Hometown - Fairfax, VA
2. Undergrad - University of Virginia
3. Medical School - Virginia Commonwealth University
4. Hobbies? All food-related activities: cooking, trying new restaurants, collecting cookbooks, and travelling to eat new cuisines. I also dabble in musical things.
5. What do you like about Baltimore? I love being close to the harbor. You can smell the salt in the water in the mornings. There are a ton of really great restaurants and crab season is a real thing. I guess I'm a Marylander now.
6. Favorite part about being a resident at Maryland? Hands down, the people. My seniors and faculty are extremely supportive and involved in our education. I cannot imagine myself anywhere else!
