

UNIVERSITY of MARYLAND BALTIMORE WASHINGTON MEDICAL CENTER

A Member of the University of Maryland Medical System

PATIENT & FAMILY **HANDBOOK**

We hope this **HANDBOOK** will help answer questions you may have during your stay at the **University of Maryland Baltimore Washington Medical Center**.

- 2 Patient Rights and Responsibilities**
- 6 About the Hospital**
- 10 Family and Friends**
- 12 Your Stay at the Medical Center**
- 15 Your Health Care Team**
- 19 Be an Active Part of Your Health Care Team**
- 22 Medical Information and Support Services**
- 23 For Your Safety and Comfort**
- 26 Financial Arrangements**
- 28 Hospital Discharge**
- 31 Informed Consent and Advance Directives**
- 32 Nondiscrimination Policy**
- 35 TV Channel Listing**
- 36 How to Stay Informed**
- 37 Say Thanks to Your Care Team**
- 38 Notes**
- 40 Index**

Welcome

Welcome to the University of Maryland Baltimore Washington Medical Center. We appreciate that you have chosen UM BWMC for your health care needs and that you have placed your trust in us.

Please know that the entire UM BWMC team is committed to providing you with the highest quality care and to making your stay as comfortable as possible.

Delivering exceptional, compassionate and safe care is our top priority and we continually monitor our quality to make sure that we are meeting the highest standards.

We hope this handbook is helpful to you and your family during your stay with us. If you need any assistance or have any questions or concerns, please ask a UM BWMC staff member. We are here to serve you! Thank you for selecting UM Baltimore Washington Medical Center for your health care needs.

Sincerely,

A handwritten signature in black ink that reads "Karen E. Olscamp". The signature is fluid and cursive.

KAREN E. OLSCAMP
President and Chief Executive Officer

OUR MISSION To provide the highest quality health care services to the communities we serve.

OUR VISION To be the preferred regional medical center through nationally recognized quality, personalized service and outstanding people.

Patient Rights and Responsibilities

AS A PATIENT, YOU HAVE A RIGHT TO:

- Receive considerate, respectful and compassionate care regardless of your race, religion, color, national origin, sex, age, sexual orientation, gender identity, disability, or source of payment.
- Participate in the development and implementation of your plan of care.
- Information about your diagnosis, condition, and treatment in terms that you can understand. You have the right to give written informed consent before any non-emergency procedure begins.
- Be informed about outcomes of care, treatment and services provided, including unanticipated outcomes.
- Refuse treatment to the extent permitted by law and to be informed of the possible consequences of the refusal.
- Agree or refuse to take part in medical research studies. You may withdraw from a study at any time.
- Participate or refuse to participate in recording or filming for purposes other than identification, diagnosis or treatment.
- Have access to sign language or foreign language interpreter services, which will be provided at no cost to you. We will provide an interpreter as needed.
- Formulate advance medical directives and have them followed within the limits of the law and the organization's capabilities. We can provide you with information that will help you complete an advance medical directive.
- Have your pain assessed and to be involved in decisions about managing your pain.
- Confidential clinical and personal records.
- Know the names and professional titles of your physicians and caregivers.
- Be involved in your discharge plan. You can expect to be told in a timely manner of the need for planning your discharge or transfer to another facility or level of care. Before your discharge, you can expect to receive information about follow-up care that you may need.
- Be free from restraint or seclusion, of any form, imposed by staff as means of coercion, discipline, convenience, or retaliation. Restraint or seclusion may only be used to ensure the immediate physical safety of you, staff, or others and must be discontinued at the earliest possible time.

- Be protected from real or perceived mistreatment including, abuse, neglect, or exploitation from anyone, including staff, students, volunteers, other patients, visitors, or family members.
- Choose a person to give you emotional support (spouse, domestic partner, family member or friend) during the course of your hospitalization.
- Request that your family or representative of your choice and your own physician be notified of your admission to the hospital.
- Access protective and advocacy services in case of abuse or neglect. The hospital will provide a list of protective and advocacy resources.
- Pastoral and other spiritual services. Chaplains are available to help you directly or contact your clergy.
- An explanation of hospital rules.
- Receive visitors who have full and equal visitation privileges consistent with your preferences and protection of the health and safety of patients, staff and visitors. You have the right to withdraw or deny visitation privileges at any time during your hospital stay. The Medical Center does not restrict or deny visitation privileges based on race, color, national origin, religion, sex, gender identity, sexual orientation or disability. Visitation guidelines are as follows:
 - Acute Care Units, Pediatrics and the Emergency Department
 - 24 hours (all children under 12 must be supervised)
 - Psychiatric Unit
 - Daily 6-7 pm
 - Weekends and holidays 2:30-4 pm
 - Psychiatric Unit Family Hours (17 years old and younger)
 - Daily 5:30-6 pm
 - Weekends and holidays 2-2:30 pm
- An explanation if we restrict your visitors, mail or telephone calls.
- Know about professional and financial ties between institutions and people caring for you.
- See your medical record within the limits of the law.
- An examination and explanation of your bill, regardless of how it is paid.
- You and your family member have a right to discuss ethical issues with an Ethics Committee representative. Call 410-787-4525 and ask for the hospital Ethics Committee.

AS A PATIENT, YOU ARE RESPONSIBLE FOR:

- Providing the hospital with complete and accurate information when required, including the following:
 - Your full name, address, home telephone number
 - Date of birth
 - Social Security number
 - Insurance carrier
 - Employer
- Providing the hospital with your health and medical history, including:
 - Present condition
 - Past illnesses
 - Previous hospital stays
 - Medicines
 - Vitamins
 - Herbal products
 - Any other matters that pertain to your health, including perceived safety risks
- Providing the hospital or your doctor with a copy of your advance directive, if you have one.
- Asking questions when you do not understand information or instructions.
- Telling your doctor if you believe you can't follow through with your treatment plan.
- Outcomes that result from you not following the treatment and service plan.
- Reporting changes in your condition or symptoms, including pain, to a member of the health care team.
- Acting in a considerate and cooperative manner and respecting the rights and property of others.
- Following the rules and regulations of the health care facility.
- Keeping your scheduled outpatient appointments or cancelling them in advance if at all possible.

DO YOU HAVE QUESTIONS OR CONCERNS?

You have a right to voice your concerns about the care you receive. If you have concerns we urge you to:

- Tell your physician, nurse or care giver about your concerns.
- If you believe further action needs to be taken, please talk to the manager.
- You may also contact the Patient Advocate:
 - Phone: 410-787-4200
 - Email: feedback@umm.edu
 - An immediate resolution will be attempted for all complaints. If unable to resolve or a grievance is filed, an initial written response will be provided within 7 days of receiving the grievance.
- Or you may contact the Maryland Office of Health Care Quality:
 - Mailing Address:
Spring Grove Center
Bland Bryant Building
55 Wade Avenue
Catonsville, MD 21228
 - Phone: 1-877-402-8218
 - Email: ohcq.web@maryland.gov
- Or you may contact The Joint Commission:
 - Mailing Address:
Office of Quality and Patient Safety
The Joint Commission
One Renaissance Boulevard
Oakbrook Terrace, IL 60181
 - Phone: 1-800-994-6610
 - Email: patientsafetyreport@jointcommission.org

About the Hospital

USING HOSPITAL TELEPHONES

- To make a local call, dial 9 then the area code and local number.
- To call a number within the medical center, dial the last four digits of the phone number.
- Patient rooms may be called directly by dialing “410-863-” followed by a four-digit extension that can be found on the white board in your patient room.
- If you change rooms, your phone number will change.
- The medical center does not accept collect calls.
- Special equipment is available to assist hearing-impaired patients. Please ask a member of your nursing team for assistance.
- The medical center uses speech recognition software that recognizes a department name or a person’s name so the caller can be automatically transferred. If the software does not recognize the name, the caller will be transferred to the operator for assistance.

ROOM NUMBERING SYSTEM

The medical center’s patient rooms are located on the second through the seventh floors. The room numbers are as follows:

Second Floor:	Psychiatry Department	Rooms #217-234
	Progressive Care	Rooms #240-265
	Critical Care West	Rooms #270-293
	2 North	Rooms #1-12
Third Floor:	Pediatrics	Rooms #314-323
	Family Birthing Center	Ask your nurse for your FBC room number.
Fourth Floor:	4 South	Rooms #440-466
	4 West	Rooms #470-496
Fifth Floor:	5 South	Rooms #540-564
	5 West	Rooms #570-599
Sixth Floor:	6 South	Rooms #640-665
	6 West	Rooms #670-699
Seventh Floor:	7 West	Rooms #770-799

VISITING HOURS

ACUTE CARE UNITS, PEDIATRICS AND THE EMERGENCY DEPARTMENT:

Visitors are welcome 24 hours a day, seven days a week. All children under 12 must be supervised. In pediatrics, two parents/guardians may stay overnight with their child in his or her patient room.

Psychiatric Unit:

Visitors are welcome daily, 6-7 pm

Weekends and holidays, 2:30-4 pm

Psychiatric Unit Family Hours (17 years old and younger):

Visitors are welcome daily, 5:30-6 pm

Weekends and holidays, 2-2:30 pm

Visiting hours are subject to change and certain restrictions may apply for the safety of our patients. For example, during flu season, if there is heavy flu activity, visitor restrictions may be put into place to protect our patients.

INFORMATION DESK

An information desk is located in the medical center's main lobby. All visitors must go to the information desk upon arrival to receive a visitor's pass. Medical center security and volunteers are available to answer questions and provide passes 24 hours a day, seven days a week.

The main lobby information desk can be reached from inside the hospital at extension 6643.

FOOD SERVICE LOCATIONS

UM Baltimore Washington Medical Center has a variety of dining options for our visitors, including the cafeteria, a café and a coffee stand.

- **Cafeteria – on the lower level**
Open Monday through Friday, 2-5 am, 7 am-3 pm, 5-7 pm;
Saturday and Sunday, 2-5 am, 7:30-9:30 am,
11:30 am-2 pm, 5-7 pm
- **Café – on the first level**
Open seven days a week, 7:30 am-10 pm
Grill closes at 9:30 pm
- **City Dock Coffee Stand – on the first level**
Open Monday through Friday, 6:30 am-6 pm;
Saturday and Sunday, 7:30 am-12 pm

PUBLIC RESTROOMS

Public restrooms are conveniently located throughout the medical center on each floor. For the safety of our patients, please do not use the bathrooms in patient rooms. They are reserved only for patients in order to protect their health.

ATMs

For your convenience, an automated teller machine (ATM) is located outside of the cafeteria on the lower level of the medical center.

CHAPEL

A nondenominational interfaith chapel is located on the lower level of the medical center and can be accessed from the main visitor's elevator. It is open to patients, visitors and staff 24 hours every day. The chapel provides a quiet atmosphere for prayer, meditation or reflection.

GIFT SHOP

The gift shop is located on the first floor of the medical center next to the café. It features cards, magazines, flowers and gifts available for purchase. Its hours of operation are seven days a week, 7:30 am-10 pm.

MAIL

Mail is delivered every weekday at approximately 2 pm. Packages and flowers are delivered to you upon their arrival. While you are in the medical center, your mailing address will be:

Your Name
UM Baltimore Washington Medical Center
301 Hospital Drive
Glen Burnie, MD 21061

If mail is received after you leave the medical center, it will be returned to the sender.

LOST AND FOUND

To inquire about an item in the lost and found, please call the security supervisor at 410-787-4778.

PARKING

Valet parking is free and available at the main entrance of the hospital Monday through Friday from 7:30 am-5 pm. There is additional parking in the lot in front of the hospital and there is a visitor's parking garage adjacent to the main entrance.

Our visitor's parking garage utilizes parking gates. When entering the garage, you will receive a ticket at the gate. Please bring the ticket into the hospital with you and have it validated at the main lobby information desk before returning to your vehicle. All parking is free of charge.

Family and Friends

PATIENT VISITATION RIGHTS

Patients have the right to receive visitors of their choosing, such as a spouse, domestic partner, other family or friends. Patients have the right to withdraw or deny visitation privileges at any time. All patients have the right to designate a support person to stay with them as needed and help them communicate with the health care team (see page 15).

The Medical Center ensures that all visitors enjoy full and equal visitation privileges consistent with patient preferences and protection of the health and safety of patients, staff and visitors. The Medical Center does not restrict or deny visitation privileges based on race, color, national origin, religion, sex, gender identification, sexual orientation or disability. The Medical Center is committed to open and flexible visitation, which encourages visitation by individuals who give emotional support to our patients. The Medical Center prefers two visitors at any one time. Please check with your nursing team for any specific visitation guidelines that may apply on your unit.

CARINGBRIDGE WEBSITE

CaringBridge is a free Internet service that helps patients and their families stay connected with loved ones during medical treatment. Patients or their family members can create a secure CaringBridge web page, and then sign in at any time to post journal entries to update friends and family members. Only those who have been given the site address and password can visit, read the updates and post messages of support. CaringBridge can be accessed at www.caringbridge.org.

HOTELS AND LODGING

There are many hotels conveniently located near UM Baltimore Washington Medical Center. Many of them are centrally located by BWI Thurgood Marshall Airport (8 miles away from UM BWMC) and near Arundel Mills (8 miles away from UM BWMC). To view a list of nearby hotels, visit umbwmc.org/visitors.

FLOWERS AND BALLOONS

When someone sends you flowers, they are delivered to your room when allowed. To avoid infection, live flowers may not be permitted in certain areas. Only foil balloons are permitted in the hospital, since some patients are allergic to latex.

PATIENT AND FAMILY ADVISORY COUNCIL

UM BWMC has a group of patients, families, community members and representatives from our medical center, called the Patient and Family Advisory Council, who regularly meet and provide feedback on current initiatives and projects happening at the medical center. The council's feedback enables the medical center to ensure we provide an exceptional patient experience that meets all the needs of our patients and their family members.

Are you a member of the local community who has thoughts or suggestions about the patient experience at UM BWMC and would like to be involved in shaping the future of our healthcare services? We invite you to serve on our Patient and Family Advisory Council. If you or a family member is interested in participating, please call 410-787-4747 or email feedback@umm.edu.

A SAFE, PEACEFUL PLACE OF HEALING

UM BWMC is committed to providing a safe healing environment for our staff and patients.

- We have a Zero Tolerance Policy for disruptive behavior, threats and violence.
- If you see something, say something. Please report any safety concerns to hospital security at 410-271-2022.
- Please minimize noise to allow our patients a quiet environment to rest and recover.

Your Stay at the Medical Center

IDENTIFICATION BAND

Your identification (ID) band shows your name, date of birth and medical record number. The ID band is used to match you with the treatment and medications you need. Do not remove it while you are at the Medical Center.

YOUR ROOM

Room assignments are made based on your diagnosis. The staff members on each unit possess specific skills and knowledge to provide the appropriate care. You may be transferred during your stay as your condition changes.

YOUR BED

The nursing staff will show you how to raise and lower your bed and can help you adjust it. Please do not try to get out of bed unless your doctor or nurse says it is okay. Your bed should always be in the “low” position when you get in or out of it.

Your doctor or nurse may decide there is a specific medical reason for your bed rails to be raised. If so, please do not lower them yourself or allow a visitor to do so for you. Use the call signal button to get a staff member if you need assistance.

Your bed will have fresh linens when you arrive in your room. During your stay, a member of your nursing team will change your bed linens.

HOUSEKEEPING SERVICES

Your room will be cleaned every day during your stay between 7:30 am and 3 pm. If it is after 3 pm and you need additional cleaning or housekeeping-related services, please call extension 2692.

CALLING YOUR NURSE

Each bedside unit has a call signal button to notify the nursing staff that you need assistance. You will be shown how to operate this. In addition, you should expect someone from the nursing staff to make rounds every hour while you are awake. When the staff are in your room, please make them aware of any needs you might have so they can make you as comfortable as possible.

BATHING AND TOILETRIES

If you need assistance, your nurse or nursing assistant can help you with your bath or shower. Gowns are provided but undergarments are not. A toothbrush, toothpaste and other mouth care products will be provided. If you need a comb or other toiletries, please ask your nurse.

MEALS

Nutrition therapy is an integral part of your treatment and recovery while you are in the medical center. We are committed to providing you with exceptional nutrition care and excellent meal service. We are proud to offer fresh, local foods—produce from local farms and meats purchased fresh daily from a local meat company.

You will be able to select your meals daily in accordance with the diet order that is prescribed by your physician. A host/hostess will visit you at bedside to obtain your menu selections. Hosts/Hostesses will deliver each meal and are available to answer questions about specific food items. If you have a special request or do not prefer what is on your tray, please call your host/hostess (the phone number is on the white board in patient rooms) or the Diet Office at extension 4378.

Our registered, licensed dietitians will monitor your nutritional status and treatment to ensure that you are making progress. They also provide nutrition education when needed.

In addition, guest trays are available for a nominal fee (\$4 for breakfast, \$5 for lunch and \$5 for dinner). Please notify the host/hostess or call the Diet Office at extension 4378 to order a guest tray.

TELEVISION

All patient rooms are equipped with individual television sets for personal viewing. Closed captioning is available upon request. TV services are free. A listing of our TV channels can be found on page 35.

Your television can also be used to view educational health videos that your nurse will prescribe for you based on your diagnosis and health concerns. This TV programming also includes hospital information and relaxation videos. Your nurse will show you how to use these TV features.

WIRELESS INTERNET SERVICE

Wireless internet service is free and available throughout the medical center. UM BWMC's wireless network's name is "umms-guest." Once you connect to the network, you will be directed to a web page to accept the terms of agreement. No password is needed.

SECURING YOUR VALUABLES

We strongly encourage you not to bring any personal belongings into the hospital. If you have valuables, such as jewelry and cash, please give them to a relative or friend to take care of during your stay.

Items such as contact lenses, eyeglasses, hearing aids and dentures should be stored in your bedside stand when not in use. Please mark your belongings with your name and phone number to be safe. Please don't put them on your bed or food tray as they may be damaged or lost. UM BWMC is not responsible for replacement of personal belongings.

UM BWMC offers lockable cabinets in the patient rooms of the west building, as well as a safe for other areas. Please ask your nursing staff if you would like to place something in the safe.

FIRE ALARMS

We regularly conduct fire drills to ensure your safety. If you hear an alarm, stay where you are. In the event of an actual emergency, hospital staff will notify and assist you.

PERSONAL ELECTRICAL APPLIANCES

Certain personal electrical appliances are not permitted in the medical center because of the risk of fire, disturbance to others or interference with medical equipment. Check with your nurse prior to bringing any electrical items into the medical center. If you use a Continuous Positive Airway Pressure (CPAP) unit, it may be used once it has been checked by the respiratory care department.

REFRAIN FROM RECORDING

In order to create an environment of confidentiality for our patients, we request that all patients and visitors refrain from using recording devices. This includes but is not limited to cameras, video recorders and cell phones. Please note that cell phones with cameras and video recorders, iPods with cameras, and laptop computers are not permitted in the psychiatry department (Pod 3, Partial Hospitalization Program and 2 East).

TOBACCO-FREE MEDICAL CAMPUS — NO SMOKING

To protect the health of our patients, visitors and staff, UM BWMC is a smoke-free campus. Smoking, e-cigarettes and other tobacco products are not allowed anywhere on the medical center's campus. This includes parking lots, garages and grassy areas.

Your Health Care Team

OUR COLORS OF CARE

During your stay at UM BWMC, you'll notice our health care teams dressed in various colors. These colors represent the roles each group plays on your road to recovery. It is one more way UM BWMC shows our commitment to our patients so you know who is taking care of you at each and every moment.

- Navy blue and white = Registered Nurse
- Royal blue = Patient Care Technician
- Black = Monitor Technician
- Khaki = Administrative Technician
- Gray = Respiratory Therapy
- Sky blue = Rehabilitation Services
- Purple and black = Radiology
- Red and black = Cardiology
- Jade green = Cardiac Catheterization Lab
- Teal and black = Transporter
- Cranberry = Family Birthing Center
- Dark blue = Peri-Operative Services
- Dark red = Radiology Transport
- Dark red and black = Pharmacy Technician
- Olive green = Psychiatry
- Brown = Companion
- Sea green and black = Patient Access
- Bright pink and black = Housekeeping

DOCTORS

Your attending doctor is the leader of your health care team, and he or she may be assisted by residents – doctors who are receiving additional training.

Many patients are seen by a member of our inpatient team also known as a **hospitalist**. A hospitalist is a physician, nurse practitioner or physician assistant who specializes in the care of hospitalized patients whose primary care physicians do not see patients at the hospital. Our inpatient team works together to ensure that patients receive the best care possible. Please note hospitalists do not have outside offices and do not refill medications or authorize referrals.

If you are a patient in the critical care unit, your doctor is an **intensivist**, which is a hospital-based critical care physician who specializes in the care and treatment of patients needing critical care.

If you are a patient in the Family Birthing Center, you will be assisted by a **laborist**, who is a hospital-based physician who specializes in obstetrics and gynecology.

NURSES

You will spend more time with your nurses than with any other member of your care team. They provide physical care, health education and emotional support. A registered nurse (RN) will plan your nursing care and on each shift, a specific registered nurse will supervise your care. Your nursing team may also include nurse practitioners, nursing assistants and other support staff dedicated to helping you get well.

PATIENT CARE TECHNICIANS

A patient care technician (PCT) is an important member of your care team, as they assist the RN with procedures such as taking your vital signs, drawing blood samples, and caring for wounds. They communicate with you and your RN to help to fulfill your care plan.

PHYSICIAN ASSISTANTS AND NURSE PRACTITIONERS

Physician assistants (PA) and nurse practitioners (NP) are trained, certified and licensed to take medical histories, conduct physical examinations and diagnose and treat medical problems under the supervision of physicians.

PHARMACISTS

The pharmacy team works closely with your doctor to make sure you get the most effective medications. Upon request, pharmacists are available to discuss your medicines and answer questions.

THERAPISTS

Physical therapists, speech therapists, occupational therapists and respiratory therapists help you return to normal activity as soon as possible.

CARE MANAGER

A care manager may work with your team to coordinate your discharge and the care that you may need after you leave the medical center. The care manager may work with your insurance to obtain in-network options or authorizations. They also identify services in the community to assist in your recovery. If you have a question or concern with your discharge, ask to speak to your nurse, the charge nurse, or the care manager in your area. Utilization review nurses, also working in the care management department, provide ongoing review of your hospital stay and work closely with your insurance company.

CHAPLAIN

A chaplain is a designated minister at our medical center. The chaplain performs spiritual assessments and delivers pastoral care to patients, families and staff in recovery, crisis, grief, end of life and at death.

COMPANIONS

For your safety, you may be assigned a companion to sit with you at the bedside.

DIETITIANS

Our registered, licensed dietitians will monitor your nutritional status and treatment to ensure that you are making progress. They also provide nutrition education when needed.

OTHER HEALTH CARE PROFESSIONALS AND SUPPORT SERVICES

Lab technicians, radiographers, housekeepers, security officers, facility engineers and nutritional hosts and hostesses are among the many people who make your hospital stay as beneficial and comfortable as possible.

VOLUNTEERS

Our volunteers provide support throughout the hospital, including staffing the information desk, delivering mail and flowers, operating the gift shop, escorting patients and more. Interested in volunteering? Visit umbwmc.org/giving for more information.

YOUR CARE PLAN

With your help, we will create a plan for your care. Early on, it will help us figure out what your medical problems are, and how we will treat them. At first, it might include tests to diagnose the condition. Later, it can include procedures, medications, therapy and diet.

It's important that you understand the plan. Please feel free to ask about it as many times as you need to.

WHY WE ASK THE QUESTIONS WE ASK

While you are in the hospital, different members of your care team may ask the same questions over and over. We know this may feel redundant, so we would like to tell you why we ask the questions multiple times:

What is your name and date of birth?

This is an important safety question. You will be asked this before every procedure, treatment or medication. This prevents errors.

What are you here for today?

A number of people will ask you this question when you are being admitted because you are the best source of information. We want to make sure every member of your care team understands your care plan.

Do you have any allergies?

The nurse or doctor taking care of you has this information in your chart but may double-check it just before the medication is given.

Do you have pain right now?

We ask you to rate your pain throughout the day so that we can make adjustments based on how you are currently feeling. Our goal is to make you comfortable.

Be an Active Part of Your Health Care Team

Every day is a new day. Ask your questions as often as you need to, even if you asked them yesterday.

You are our main source of information. You know how you feel. You live with your disease or illness. We depend on you and your loved ones to tell us about your health.

TIPS FOR TALKING TO YOUR HEALTH CARE TEAM

You are helping us when you ask questions. It lets us know what you understand and what you need to learn more about. The more you know, the more helpful you are to your care team. It is our job to help you understand, so let us know when you don't.

Here are some tips:

- Know the names of the people who come to talk to you. Different members of your care team focus on different things, so it is good to know who said what about your plan of care. It helps to write down names and discussions.
- Write down your questions or concerns as soon as you think of them.
- Have a family member or friend with you who can help you remember the answers.
- Have someone who can speak for you or ask questions when you feel too sick or not up to it yourself.
- Medical personnel tend to use short-cut abbreviations and phrases you may not understand, especially when they are speaking with each other. When this happens, ask the person to explain any word or phrase you don't know.
- Your nurse will be able to answer many of your questions and will know the best person to talk to about specific questions or concerns.
- At any point you think your care team has information about you or your care plan that is wrong or not completely correct, speak up. This helps to prevent errors.

OUTPATIENT OBSERVATION

Your doctors may recommend that you continue to be evaluated in our hospital as an observation care patient. This allows us to perform additional monitoring of your health, have more time for testing and test results, and have more time for your doctor to determine the best care plan for you. As an outpatient in observation care, your stay will typically be 24 to 48 hours. The next steps may be to admit you to a higher level of care or discharge you with follow-up services once your initial evaluation is complete.

PALLIATIVE CARE

The goal of palliative care is to relieve suffering and provide the best possible quality of life for the patient and their family. Palliative Care is provided by a multidisciplinary team of physicians, nurses, pharmacists, spiritual care and other clinicians who work with your health care providers to give an extra layer of support. The team helps patients and their families manage the symptoms, stress and pain of a serious illness. Palliative care is appropriate at any age and at any stage in a serious illness and can be provided along with curative treatment. Ask your physician for a palliative care consult, or call the Palliative Care Team directly at extension 4581 or 410-787-4581.

ETHICS CONSULTATION SERVICE

Sometimes patients, their families, and their health care team face difficult ethical issues regarding treatment decisions. The Ethics Consultation Service has individuals trained in ethical decision-making who can explain medical facts, discuss options for care, explain choices, offer guidance and work with you and your health care team to resolve disagreements. Any patient or family member may discuss ethical issues with a member of the Ethics Consultation Service. Please call 410-787-4525 and ask for the hospital Ethics Committee.

- What is the long-term outlook with and without treatment?
- If my symptoms get worse, what should I do on my own?
When should I contact you?
- Are there any activities or foods I should avoid?
- When can I return to work or school?

ASSIGN A SUPPORT PERSON AND A LAY CAREGIVER

While you are at the medical center, you may not have the energy or attention to keep track of what your health team tells you. You should assign a family member or friend to act as a liaison with the team and give permission for him or her to speak for you. Your support person can stay with you at all times unless for medical or safety reasons it would be inappropriate.

You should also consider designating a Lay Caregiver, which is an adult who is designated by a patient or the personal representative of a patient who provides or may provide aftercare for the patient in their home. (This does not include licensed nurses.) Please let your nurse know if you have a lay caregiver, giving permission to share your medical information. This way, your clinical care team can coordinate with the lay caregiver to prepare for your discharge and ensure a smooth transition home.

RAPID RESPONSE PROCESS: PARTNERING FOR THE SAFEST CARE

We try to keep close watch of our patients so that we are alerted early to possible problems in their condition. Family members are very important “eyes and ears” to help the staff. There may be times that a loved one will note changes in the patient that we may not have noticed. If you have particular concerns that the patient’s condition is taking a turn for the worse, be sure to ask the nurse caring for the patient to start the Rapid Response Process.

- Rapid Response is a way to get help right away from your doctor or another doctor for a sudden and worrisome change in the patient’s condition.
- When you request the Rapid Response Process, the nurse will assess the patient right away.
- If called by the nurse, the doctor will come right away to assess the problem and begin needed treatment.
- The Rapid Response Team can be reached at extension 6900.

IF YOU HAVE CONCERNS

If you have concerns about the care you are receiving, we urge you to tell your physician or nurse. If you believe further action needs to be taken, talk with the manager of your unit. You may also contact:

- Patient Advocate Phone: extension 4200 or 410-787-4200.
- Safety Hotline: extension 2348.

Medical Information and Support Services

FOREIGN/SIGN LANGUAGE INTERPRETERS

If you require a foreign-language or sign-language interpreter, tell your nurse or physician. Interpretation services are available 24 hours a day, 7 days a week.

PERSONS WITH DISABILITIES

To meet the health care needs of all persons with disabilities, the medical center provides various services depending upon the needs of the individual. Please ask your nurse for assistance or more information. Our TTY number is 410-787-4498.

PASTORAL CARE

The medical center chaplain and a group of volunteer clergy are available to all patients and their families to offer nondenominational, spiritual care. Every day of the week, we have a staff chaplain and volunteer clergy available to help you. Upon your admittance to the hospital, when you are asked, let the admitting clerk know if you would like a visit during your stay. Be sure to give them your religious affiliation if you have one. Each day, we have Catholic Lay Visitors who will offer the Sacrament of Holy Communion to our patients. We also have emergency on-call clergy and other spiritual leaders available to meet your spiritual needs. If you would like a chaplain to visit, please ask your nurse to contact him or call extension 4183 (410-787-4183). Your own clergy may visit at any time.

ORGAN AND TISSUE DONATION

In compliance with the Maryland Anatomical Gift Act and to ensure donation options are considered, we utilize the services of the Living Legacy Foundation of Maryland.

For Your Safety and Comfort

Patient safety and the quality of care are our top priority.

ENSURING YOUR SAFETY

To ensure you remain safe while in the medical center, please note the following safety guidelines:

- Always use bedroom slippers or the nonskid socks we provide when you get out of bed.
- Do not get out of bed to go to the bathroom without assistance unless your physician has given permission and has notified the nursing staff of his or her permission.
- Do not lean on a bedside cabinet or table for support; it may move under your weight.
- Always have assistance in getting in and out of a wheelchair. Be sure to use the call button for assistance.
- Drink hot liquids in an upright position to avoid spilling them on yourself.
- Do not attempt to put down bedside rails without assistance.
- Please notify medical center staff if you do not want any visitors or you want to restrict specific visitors.
- Please notify medical center staff if you do not want anyone to know you are in the medical center.
- Security services are available 24 hours a day, seven days a week.

PREVENTING INFECTIONS

Anyone can get an infection. You can help us prevent them.

- Ask family or friends not to visit if they do not feel well, have an infection or even if they have a runny nose.
- Some patients will require special isolation precautions to protect themselves and others from infections.
- Ask your nurse to explain why you are on isolation precautions.
- Ask your visitors to observe isolation signs. Visitors must wear a mask and gown as instructed.
- Please ask a nurse to help visitors the first time they enter an isolation room.

- If someone does not come in with the correct coverings, please ask them to return with the right coverings.
- Everyone, including you and your visitors, **MUST** wash his or her hands, or use hand sanitizer, when entering and leaving your room.
- Hands must be washed with soap and water after sneezing, coughing, touching eyes, nose or mouth, before eating and after using the restroom.
- Do not permit anyone to touch you, your IV or your wounds if you did not see them wash their hands or use hand sanitizer. This includes your doctor or nurse.

MEDICATIONS

Please inform your hospital healthcare team including the pharmacist of all the medications you take at home including over-the-counter (non-prescription) products, vitamins, and herbal supplements.

Do not take any medications you bring from home unless your hospital doctor or nurse tells you to do so. Medications you receive in the hospital may look different from what you take at home.

We are very careful about making sure that you get the medications ordered for you, but you can help make this even safer:

- Be sure that your nurse asks your name and date of birth and checks your ID band before giving you any medications.
- Do not be afraid to tell the nurse if you think you are about to get the wrong medication or not taking a medication at the right time.
- Your nurse should tell you the name of the medications and what each one is for before giving you medications, but if the nurse does not, **ASK**.
- Ask if there are any common medication side effects that you should be watching for so that you can report them immediately to your nurse.
- If you are not feeling well enough to ask questions about your medications, ask a family member or caretaker to ask questions for you.

MANAGING YOUR PAIN

Pain is a symptom experienced by many patients with injuries and chronic illnesses and after surgery. You will receive assessment and prompt treatment of pain and other symptoms by:

- Having your reports of pain and other symptoms taken seriously.
- Receiving information about what may be causing the symptoms.
- Having regular reassessments.
- Having treatment adjustments if symptoms have not been eased.
- Being referred to a pain or palliative care specialist if symptoms persist.
- Working with the health care team to evaluate symptom management choices.

- Getting clear and prompt answers to questions.
- Having time to make decisions.

Staff will ask you to describe how you are feeling to ensure they are taking care of any pain. We use a rating scale of 0 to 10 (0 being no pain and 10 being the worst pain you have ever had) to help us identify trends so we know if you are getting better or worse. This also helps us to determine how well any pain medication you are receiving is working.

Patients may also refuse a treatment in an effort to ease pain.

LEAVING THE UNIT

While you are a patient at the medical center, we expect that you will stay on your unit and not leave the unit. This is for your safety. If you leave the unit, you may miss your medical care. This will make it difficult for us to be there for the medical needs you may have. There are situations when patients stay in the hospital for a long time. In that case, activity off the unit may be best for you.

Before you are allowed to leave the unit:

- It is very important to first discuss this with your nurse.
- We will involve your family and members of your health care team in the discussion.

Financial Arrangements

WHAT A HOSPITAL BILL COVERS

Your hospital bill includes charges for your room and all services ordered by your doctors. Services include tests and procedures, medicines and therapy if performed.

PHYSICIAN BILLING

Charges for care you receive from physicians are not included on your hospital bill and you will receive separate billings from each physician who provides a service. Some of the doctors you may not see in person, such as a radiologist and pathologist who interpret your tests or treatments. Physician participation in your health insurance may not be at the same level as the hospital's participation and benefits may be different from your hospital coverage. You may receive several bills for your hospitalization; if you have questions, please call the number provided on the billing statement.

INSURANCE

The Patient Accounting Department will submit your claim to your insurance company. To ensure accuracy, we ask that you bring your driver's license and insurance cards. If you have any questions regarding your hospital bill, please call 410-821-4140 between 8 am and 4:30 pm, Monday through Friday.

For your convenience, UM Baltimore Washington Medical Center accepts hospital bill payments online. Please visit umbwmc.org/patient-portal and follow the prompts to submit an online payment.

COORDINATION OF BENEFITS (COB)

Coordination of Benefits, referred to as COB, is a term used by insurance companies when you are covered under two or more insurance policies. This usually happens when both husband and wife are listed on each other's insurance policies or when both parents carry their children on their individual policies. This also can occur when you are involved in a motor vehicle accident and have medical insurance and automobile insurance.

You may receive a request from your insurance plan to complete a COB form before paying a claim. Please send in any requested information in a timely manner to avoid payment denials or delays.

MEDICARE

This hospital is an approved Medicare provider. Medicare has a COB clause and at the time of service you will be asked to answer questions to help determine the primary insurance carrier paying for your visit.

Medicare deductibles and co-insurance may be covered by your secondary insurance. If you do not have secondary insurance you will be asked to pay these amounts or establish a payment plan. If you are unable to pay these amounts, we will help you determine if you qualify for a state funded program or the hospital's financial assistance program.

MEDICAL ASSISTANCE (MEDICAID)

We will need a copy of your Medicaid card for the current month. Medicaid has payment limitations on a number of services and items.

PATIENT FINANCIAL RESPONSIBILITY

Most insurance plans have cost sharing and you may be responsible for deductibles, co-insurances and co-payments. You may be requested to pay prior to discharge. The hospital will provide emergency medical service to anyone regardless of their ability to pay. If you lack insurance coverage, you may be visited by a representative of the hospital to assist you in completing an application for Maryland Medical Assistance. If you do not qualify for Medical Assistance, you may request consideration under the hospital's Financial Assistance Program. For more information, please call 410-787-4517 or visit umbwmc.org/financial-assistance.

INSURANCE FOR NEWBORNS

Health insurance coverage is crucial when you have a newborn. It is very important that you call your insurance provider and add your newborn child to your policy. Failure to do so will result in a denial of your newborn's bill. If you have questions, please contact your insurance carrier or the Human Resources Department of the policy holder's employer.

HOSPITAL BILLING QUESTIONS?

If you have questions about your hospital bill, you may contact the Central Billing Office at 410-821-4140.

Hospital Discharge

PLANNING FOR YOUR DISCHARGE

When you are well enough to leave the hospital, your doctor will discharge you to continue your recovery. Your healthcare team will help you get ready to leave and give you and your loved ones instructions on at-home care. They will also help you arrange to get medicines, special equipment, or supplies.

A care manager will help make the arrangements if:

- You must leave in an ambulance
- You need to go to a nursing facility, rehab hospital, or other location besides your home
- You need home health services to continue your care

Your care manager will discuss discharge plans and available options with you and your loved ones.

If you have any questions or need more information, please call our Care Management Office at extension 4495 (410-787-4495).

UNDERSTANDING YOUR MEDICATIONS

Before you leave the hospital, you need to understand your medications:

- You should receive a copy of your Discharge Medication List near the time of discharge.
- Review your Discharge Medication List and make sure that you or a family member/caretaker understands all of the instructions for each medication.
- Ask if any of the medications you were taking prior to your hospital stay were stopped.
- Ask if there are any changes in the way you are to take any of the medications that you took before coming into the hospital.
- Make sure you understand any special directions, such as taking the medication with or without food and at certain times of day.
- Ask about any possible medication interactions, especially with any new medications on your Discharge Medication List.
- Ask what would happen if you do not take a medication on your Discharge Medication List and what to do if you miss a dose by accident.

- Always carry with you your most updated Medication List to share with all of your doctors. Make sure your family, caretaker or a close friend has this list in case of an emergency.

LEAVING THE MEDICAL CENTER

When you are discharged and ready to leave the medical center:

- Coordinate your transportation home.
- Make sure you gather all your personal belongings.
- Take your discharge paperwork with you.

WHEN YOU GET HOME

- Schedule recommended follow-up appointments with your doctor.
- If you don't have a primary care physician and have an immediate need for a follow-up appointment, please contact the Transitional Care Center at UM BWMC at 410-787-4291 to see a provider.
- If you need to see a specialist, please contact the Physician Referral Line at 410-787-4636 for help locating a doctor.
- If at any time you require medical attention and cannot be seen by your doctor, please consider ChoiceOne Urgent Care Severna Park, a partner of UM BWMC. ChoiceOne providers diagnose and treat all non-life-threatening illness and injury. It is located at 500 Ritchie Highway in Severna Park and is open 8 am to 8 pm seven days a week.

MyPORTFOLIO ELECTRONIC MEDICAL RECORD

As you continue to follow up with office visits to your University of Maryland physicians, *MyPORTFOLIO* is a confidential, easy-to-use site that gives you 24-hour access to key information in your medical records, such as test results, medications and a history of appointments. It uses the latest technology to keep all information completely private. Patients or their legal guardians can sign up for *MyPORTFOLIO* at myportfolio.umm.edu using the instructions and activation code found in their discharge paperwork or enrollment letter.

GETTING COPIES OF YOUR MEDICAL RECORDS

The medical record is a confidential document and access is limited to the patient and authorized persons, according to Maryland law. To get copies of your medical record, you must complete the Authorization to Release Information form – this form can be obtained from the Health Information Management (HIM) Department on the third floor of the medical center, or online at umbwmc.org/patient-portal. The HIM Department can be contacted by calling 410-787-4372.

PATIENT SATISFACTION

We care about the quality of your hospital stay. After you leave, someone may contact you by email or mail to ask about your experience. Your comments will be confidential, but will help the medical center ensure we deliver the highest quality health care services and provide an exceptional patient experience.

SUPPORT GROUPS

The medical center offers a variety of support groups to help patients, families and community members manage health conditions in a supportive group setting. These are ongoing educational series that are free of charge and open to anyone who is interested. Visit umbwmc.org/support-groups for a list of our support groups and for other programs that can help you stay well at home.

Informed Consent and Advance Directives

INFORMED CONSENT

To help you understand your medical treatment, your doctor will talk to you about:

- Your illness
- The plan for treating your illness
- The possible benefits and risks of the treatment
- Other ways to treat your illness
- What may happen if you decide against treatment

Your consent is needed before any treatment is initiated that may involve significant risk to you. Consent is not needed in certain emergencies where treatment cannot wait.

ADVANCE DIRECTIVES AND MEDICAL ORDERS FOR LIFE-SUSTAINING TREATMENT (MOLST)

Advance Directives are written instructions that allow you to make decisions about your future medical care, and/or to designate somebody to make those decisions for you if you are no longer able to do so.

Advance Directives can include: appointment of a health care agent, your health care instructions, a living will, and Do-Not-Resuscitate (DNR) orders. You may give these instructions to your family, close friends, nurses or doctors. Writing down your instructions is the best way to make sure everyone knows what you want.

The MOLST form contains medical orders about cardiopulmonary resuscitation and other life-sustaining treatments specific to your current condition. If you create a MOLST form, it puts into operation a broader, patient-developed Advance Directive. It helps to ensure that your wishes to receive or decline care are honored by all health care providers throughout the course of your care. To be valid, a MOLST form must be signed and dated by a provider with a Maryland license. You may have an Advance Directive and a MOLST form or just one of these documents. The Medical Center will honor the most current document.

Nondiscrimination Policy

University of Maryland Baltimore Washington Medical Center complies with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability or sex. University of Maryland Baltimore Washington Medical Center does not exclude people or treat them differently because of race, color, national origin, age, disability or sex.

University of Maryland Baltimore Washington Medical Center:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact Nursing Administration at 410-787-4362.

If you believe that University of Maryland Baltimore Washington Medical Center has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability or sex, you can file a grievance with: Patient Advocate Department, 301 Hospital Dr., Glen Burnie, MD 21061, 410-787-4200, TYY 410-787-4498, feedback@umm.edu, fax number 410-595-1908. You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Patient Advocate Department is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services
200 Independence Avenue, SW
Room 509F, HHH Building
Washington, DC 20201
1-800-368-1019, 800-537-7697 (TDD)

Complaint forms are available at
www.hhs.gov/ocr/office/file/index.html

As required by Maryland law, most of the Medical Center's adult inpatients and some of our pediatric inpatients will need a MOLST completed before discharge. During admission, the nurse will ask the patient or the patient's authorized decision-maker (health care agent, guardian, parent, surrogate) if there is an existing Advance Directive or MOLST form. Also, the nurse will offer MOLST educational materials to the patient or to the patient's authorized decision-maker.

Your physician or nurse practitioner will create a MOLST based on a discussion with you or your authorized decision-maker. By law, you or your authorized decision-maker can decline to discuss the MOLST.

If you wish to create a written Advance Directive, a member of our care management, palliative care or nursing teams can answer any of your questions.

If you have an Advance Directive and/or MOLST form, please bring them to the hospital. These documents will become a part of your medical record, which will help to ensure that we honor your wishes.

NOTICE OF INFORMATION ON PRIVACY PRACTICES

The Medical Center has a legal responsibility to protect your health information. Your rights regarding this protected information are outlined in our Notice of Information Privacy Practices, which can be found on our nursing units and on our web site at umbwmc.org/privacy-policy. The Medical Center may use and disclose this protected information to continue your treatment, to receive payment for services and for other purposes as described in the notice. If you have any questions, please refer to the Notice of Information Privacy Practices or contact a patient advocate.

NOTICE OF INFORMATION ON PATIENT BILL OF RIGHTS

The Medical Center has the legal responsibility to protect your patient rights. Your rights as a patient are outlined in the Patient Bill of Rights, which is posted in the Emergency Department, Admitting Office, and all patient waiting areas. You have a right to receive a written copy of the Patient Bill of Rights upon your request. If you have any questions, please contact a patient advocate.

How to Stay Informed

Here are some ways to follow what's happening at the University of Maryland Baltimore Washington Medical Center – whether you're in the hospital or off-site. These tools help the hospital staff communicate with you about special events, important announcements and emergency situations:

Speak to the nurse.

Nurses are great sources of information. The staff will do all they can to keep you informed.

Connect with us on social media.

“Like” us on Facebook ([Facebook.com/bwmcmd](https://www.facebook.com/bwmcmd)) and follow us on Twitter ([@umbwmc](https://twitter.com/umbwmc)). We use these two primary social media accounts to help keep you informed.

Visit our website.

Please visit umbwmc.org to stay up-to-date on the latest news and events happening at the medical center.

Listen for announcements in the hospital.

Overhead announcements can help keep you informed on occasions such as inclement weather or an emergency situation.

Activate your MyPORTFOLIO account.

MyPORTFOLIO is a confidential, easy-to-use site that gives you 24-hour access to key information in your medical records, such as test results, medications and a history of appointments. Your activation code and instructions are in your discharge paperwork. See page 30 for more information and how to activate your account.

Say Thanks to Your Care Team

DAISY AWARD

Want to thank your extraordinary nurse? Nominate him or her for the DAISY Award. UM BWMC honors an outstanding nurse every month with the DAISY Award. These honorees demonstrate a special commitment to clinical excellence and compassionate care. Patients and visitors may nominate a deserving nurse by completing a nomination form — please ask a staff member for a form or visit umbwmc.org/daisy.

SUNSHINE AWARD

What to say thanks to an excellent Patient Care Technician (PCT) or Patient Care Assistant (PCA)? Nominate him or her for the Sunshine Award. UM BWMC recognizes an extraordinary PCT or PCA every month with this award. Patients and visitors may nominate a deserving staff member by completing a nomination form — please ask a staff member for a form or visit umbwmc.org/sunshine.

BWMC FOUNDATION

Donations to the Baltimore Washington Medical Center Foundation support our ability to provide excellent and compassionate care in a healing environment. It is our mission to build and grow relationships and financial resources to help UM Baltimore Washington Medical Center provide the highest quality healthcare to the communities we serve. You can help.

There are many ways to give, support and recognize a friend, loved one or caregiver. A donation to the BWMC Foundation honors the recipient and supports the important work of the doctors and nurses at the medical center. For more information on the Baltimore Washington Medical Center Foundation and supporting the mission of the medical center, please visit www.bwmcfoundation.org.
