

THE NEW REGIONAL MEDICAL CENTER IN PRINCE GEORGE'S COUNTY

A Comprehensive Solution to Transforming Health Care in Prince George's County

The new regional medical center, University of Maryland Capital Region Medical Center, in Prince George's County will promote improved access to primary and ambulatory care services and be a community partner in helping to improve the health status of Prince George's County residents. In partnership with University of Maryland Medical System, it will serve as a vital asset to assist with successfully recruiting physicians of many specialties to provide high quality, clinically advanced medical care to the region.
