

Breast Center Scorecard 2016

The Breast Center at the University of Maryland, Upper Chesapeake Medical Center provides quality surgical care, state-of-the-art imaging technology and clinical expertise for individuals seeking treatment for breast care services. Our multidisciplinary team includes a Fellowship-trained breast surgeon, reconstructive and general surgery expertise and specialists in oncology, radiology, pathology and radiation therapy. This group of specialists provides high quality comprehensive care in one convenient location. Our Breast imaging services offers digital and 3D mammograms which means shorter exam times, faster results and fewer callbacks.

We are:

- ❖ Nationally Accredited Program for Breast Centers by the American College of Surgeons
- ❖ Breast Imaging Center of Excellence by the American College of Radiology
- ❖ Certified Quality Breast Center of Excellence by National Quality Metrics of Breast Centers by the National Breast Cancer Consortium.

Our program includes:

- Mammography and breast ultrasound
- Breast MRI and biopsy
- Stereotactic breast biopsy
- High-risk breast cancer clinic
- Clinical research trials
- Certified breast nurse navigator services
- Cancer LifeNet- free supportive care services
- Genetic Counseling
