

Hospitalist Services Team is seeking an **acute care nurse practitioner (NP), or physician assistant (PA-C) for night shift positions (7p-7a)** for a 4-day work week with a combination of 10- or 12-hour shifts. Weekday, weekend, shift work, holiday and on-call may be required. Program has clearly defined clinical pathways. Successful candidate will have successfully completed an approved accredited program as **acute care, nurse practitioner (ACNP) or master's prepared physician assistant (PA-C)** with appropriate certification exams. National certification in the area specialty and licensed by the Maryland Board of Nursing. NPI number, DEA and CDS required. BLS required. ACLS required.

Previous experience as NP or PA-C preferred, but not required. Registered nurse experience in an **acute care setting** highly preferred.

Responsibilities include:

- Floor calls,
- Admissions with orders and dictations.
- Back-up support is ICU APC, and nocturnist hospitalist.
- Work schedule 4-day week with ten-, or twelve-hour combination shifts available
 - **night shifts position (7p-7a).**

Nurse Practitioner or Physician Assistant will be a **hospital employee** with competitive salary and benefits package. **Night shift** has **significant night differential** in addition to **base salary**.

The suburban setting has plenty to offer, including safe neighborhoods and excellent schools.
