

An exciting full-time opportunity at University of Maryland Upper Chesapeake Health in Bel Air, Harford County, MD for an **experienced Nurse Practitioner** with previous **acute care management experience** to work with a well-respected **infectious diseases physician private practice**. The nurse practitioner will primarily provide in-patient consults and follow-up care to infectious disease patients, both in collaboration with a physician and independently.

The successful candidate will be a Certified Acute Care Nurse Practitioner (ACNP) with 2 years of acute care experience. Current licensure in Maryland and ACLS and BCLS certification required.

- Annual income potential of \$150,000 - \$160,000.
- Paid time off for 25 weekdays in a year.
- One in three-weekend call with shift differential.
- Formal onboarding, mentoring, and education provided.
- Teaching, research, and leadership tracks are available but not required.

Fit with high quality, efficient and collaborative care team is most important.

For additional information contact Marian Whitlock at Whitlock_uch@yahoo.com or call (410) 398-0258.

UMMS hospitals and health care facilities are equal opportunity employers and proud of an environment of diversity.
