

Perioperative Orientation:

At this time we have one live session that is already full, and we will be running a Zoom meeting on June 22nd from 1-3. Please let us know if this time does not work for your resident group and we will set up an additional time for a second zoom meeting.

Email: Marie Wells (mawells@umm.edu) & Stephanie Reed (Stephanie.Reed@umm.edu) to schedule

Residents and Fellows should receive copies of or review in Policy Stat these two policies:

- **Surgical Attire Policy**, which is specific to the Procedural areas, and more prescriptive than the main hospital policy
- **Surgical Counts Policy** and attachments.

Radiation safety: for residents in Urology, Vascular surgery, Orthopedic surgery and Neurosurgery:

- They need radiation dosimetry badges ordered
 - They should not be allowed into the OR without these badges
 - These are good for five years and track their radiation exposure
 - The radiation badges are ordered electronically using the “Radiation Worker Registration Form” or by submitting the paper request form via fax
 - The form can be located on the Intranet at the following site:
 - [Radiation Worker Registration Form](#)
- They should get personal lead for use in the ORs since this is used on an almost daily basis depending on their service.
 - The Vendor representative that we use in the facility is Burlington Medical
