

Library Resources for Residents

Due to covid-19, all orientation for new residents and fellows will be via Zoom in 2022. Please schedule an orientation session for your residents. The hour-long session covers:

- Creating an account to access library resources
- Finding and using the many services provided by the library
- Searching PubMed for journal articles
- Using clinical tools the library subscribes to

The session will contain new information for all residents, not only those who are new to the University of Maryland. Please schedule sessions for all of your trainees, even those who graduated from UMB or completed a UMMC residency.

Sessions are available:

Mondays at 1pm

Fridays at 9am

To schedule, contact:

Andrea Shipper, MSLIS (she/her)
Research and Education Librarian, School of Medicine
