

Library Resources for Residents and Fellows

Please remember to schedule an orientation session for your residents and fellows!

The hour-long session covers:

- Finding and using the many services provided by the library
- Searching PubMed for journal articles
- Using clinical tools the library subscribes to, such as UpToDate and Micromedex

Who should attend:

- All of your trainees, even those who graduated from UMB or completed a UMMC residency.
- PGY-2 who did internship elsewhere
- Fellows who did a residency here
- Pharmacy/dental residents can contact us to be put in touch with the appropriate librarian to set up similar training

Notes on scheduling:

- Regular sessions scheduled for **Tuesdays and Thursdays at 9am and 1pm**, in June and July. (Large groups can be accommodated outside of these set days/times).
- Sessions can be in-person (in the library, preferably) or virtually on Zoom
- Often, multiple smaller cohorts are scheduled in one session. We send out a Zoom link for ALL groups attending the session. Please do not create a separate Zoom link.
- Coordinators, please contact us by email; please do not have individual fellows or off-cycle arrivals contact us directly.

To schedule, contact:

Nicole Shelawala, M.Eng, MLIS (she/her, they/them)
