University of Maryland Shore Regional Health is the principal provider of comprehensive health care services for more than 170,000 residents of Caroline, Dorchester, Kent, Queen Anne’s and Talbot counties on Maryland’s Eastern Shore. UM Shore Regional Health operates three hospitals, a freestanding emergency center, an acute rehabilitation center, outpatient care centers and home care services throughout the region.

A COORDINATED HEALTH CARE NETWORK

University of Maryland Shore Regional Health was formed July 1, 2013, when Shore Health and Chester River Health, which both had been affiliated as members of the University of Maryland Medical System (UMMS), merged to form one coordinated network within UMMS after months of study, planning and community input.

The mission of UM Shore Regional Health, Creating Healthier Communities Together, reflects the organization’s goal of providing quality health care services that are comprehensive, accessible and convenient, and that address the health care needs of the region.

UM Shore Regional Health is an Integral member of UMMS and is closely affiliated with the University of Maryland Medical Center for patients who need more complex care.

UM Shore Regional Health offers home-based services throughout its service area through UM Chester River Home Care and UM Shore Home Care.

University of Maryland Shore Regional Health comprises:

- University of Maryland Shore Medical Center at Chestertown
- University of Maryland Shore Medical Center at Dorchester
- University of Maryland Shore Medical Center at Easton
- University of Maryland Shore Emergency Center at Queenstown
- UM Shore Medical Pavilions at Chestertown, Denton, Dorchester, Easton, Queenstown
- A host of outpatient, rehabilitation and diagnostic facilities including the Cancer Center, the Clark Comprehensive Breast Center and the Diagnostic and Imaging Center.
